- Classes are Guided Self-Study with experienced Extra Class Instructors!
- Classes are Free and Open to all ages!
- Free study resources are available!
Optional purchase of personal study media
- Class Attendance is optional however very helpful!
Learning the material required for the tests!
- Talk around the world, build your own antenna, bounce signals off the moon, go digital with a computer and satellite, talk to the ISS Astronauts, experiment with drones, do remote control vehicles, participate in emergency communications and weather alerts, but most of all – HAVE FUN!
- Ham Radio is an affordable hobby that is no longer an OLD TIMERS hobby!
- Attend class sessions and earn chances to win Door Prizes and a Handheld Radio!
- Sponsored by the TYLER PUBIC LIBRARY and Members of TARC – Tyler Amateur Radio Club
